## **DETAILED ACTION**

### ***Specification***

The abstract of the disclosure is objected to because of legal terms such a "means" should be avoided. Correction is required. See MPEP § 608.01(b).

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 7-13 are replete with numerous errors and informalities too numerous to mention specifically. These claims should be revised carefully. Examples of such errors are:

In line 1 of claim 7, its is unclear what is guaranteed by the "guarantee hinge".

In lines 4-5 of claim 1 it is unclear how the cap lid is closable with the inner thread of the closure lower part.

In line 8, claim 7, it appears "a lid cap" should be "said cap lid",

In line 9 of claim 1 it is unclear what a "muff" refers to.

Applicant is reminded that these noted instances are exemplary only. It is Applicants responsibility to further review the claims for instances of

indefiniteness not specifically cited.

***Allowable Subject Matter***

Claims 7-13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Walter, Roth and Odet et al were cited to show further examples of hinged closures having a piercing means.
